- Completed my schooling from Salwan Public School, Delhi.

## Courses

---

- Programming(C) [1 & 2]
- Discrete mathematics [1 & 2]
- Microcomputers
- Calculus

## EXPERIENCE

---

### Automation Consultant

*Sept 2024 – Present*

- Enhanced data visualization in a .NET application by refining existing graphs, creating new ones, and integrating error handling.
- Collaborated with international teams and peers to incorporate feedback and deliver client-focused solutions.
- Transitioned to a new database structure, preparing for stored procedure integration and parameter flexibility.
- Prioritized server-side implementations for scalability and efficiency in backend development.
- Demonstrated strong problem-solving, time management, and professional communication skills.
